Terrain:

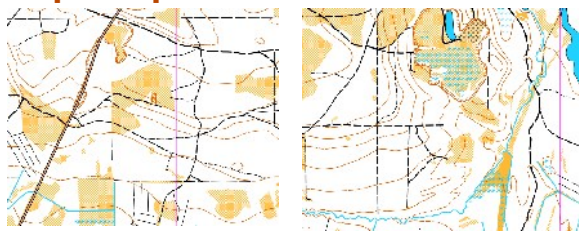

Relief elevation of Pope with surrounding forests. Rinda river's and Puze lake's banks, Svete river's ravines. Area is diagonally crossed by the Ventspils-Riga highway. Map's southern boundary is the Ventspils-Riga railway. But participants will be able to get to know the former Ventspils Dundaga gauge railway line. The area is covered with very diverse forest types, ranging from sparse pine forests, ending with marshy overgrown clearings. Pope region is rich with huge stones, ancient trees, mineral quarries. See you at old baron's mansion, now Pope Elementary School.

Distance, punching: 50 controls with values 3-7 points (total - 250), SportIdent will be in use, own or rented SI cards with corresponding punch capacity. **Competitors are responsible for capacity of their own SI cards.**

Map: Scale 1:30000, contours – 5m (form lines 2,5m), sheet size 52x41cm (~A2), fully laminated. Descriptions of controls as icons on the map (could be easy cut off). Magnetic north lines per 1km, aligned with map sheet side. Water points – four, shown on map as symbol of "cup" (in nature – center of "cup"). Forbidden areas – red crosshair and habited areas (light olive).

Topographics – 1985., forestry – May, 2013 and recent survey data. **Some latest clearings may not be shown, passability of some roads and paths may differ from those shown on map.**
